

# Haneda International Terminal Appreciation for Your Support on 10th Anniversary

21 October 2020

I wish to take this opportunity to thank our customers for your patronage of Haneda Airport International Terminal.

Tokyo International Air Terminal Corporation celebrated the 10th anniversary of the opening of our international passenger terminal on October 21, this year. With the extensions to our terminal and increases in the number of slots, a vast number of people fly in and out of our terminal--around 17 million last fiscal year. I would like to express my sincere gratitude to all passengers and airlines, as well as to all related businesses, government agencies, shareholders, and banks for their cooperation and support in the operation of the terminal.

The number of international flights has decreased significantly this year due to the impact of the new coronavirus worldwide. However, even under these circumstances, we will continue to strive to ensure the safety and security of terminal users and further improve our services. From the perspective of quarantine protection, we will be proactive in introducing automated, unmanned and contactless boarding procedures in cooperation with airlines.

In this, our 10th year of operation, around 50 new flights to 22 new destinations were expected to commence this year. Although we have not yet realized this increase at this stage, Haneda Airport's role as Japan's and Greater Tokyo's Gateway to the world has not changed.

I join with everyone here in saying that we stand waiting to redouble our efforts to be able to farewell the smiling faces of our customers departing from Haneda Airport and welcome those arriving from far off lands. We look forward to your continued patronage.

Katsuji Doi  
President & CEO,  
Tokyo International  
Air Terminal Corporation
