

Terminal 3, Haneda Airport Start of Construction of New Business Aviation Gate

We are pleased to announce the construction of a new business aviation gate to go into service at Terminal 3 at New Tokyo International Airport (Haneda Airport) in July this year. This will enable the airport to provide improved convenience and meet the growing demand for business jets in the run up to the Tokyo Olympics and Paralympics.

(Rendering of completed facility)

■ Brief Description of New Corporate Jet Gate

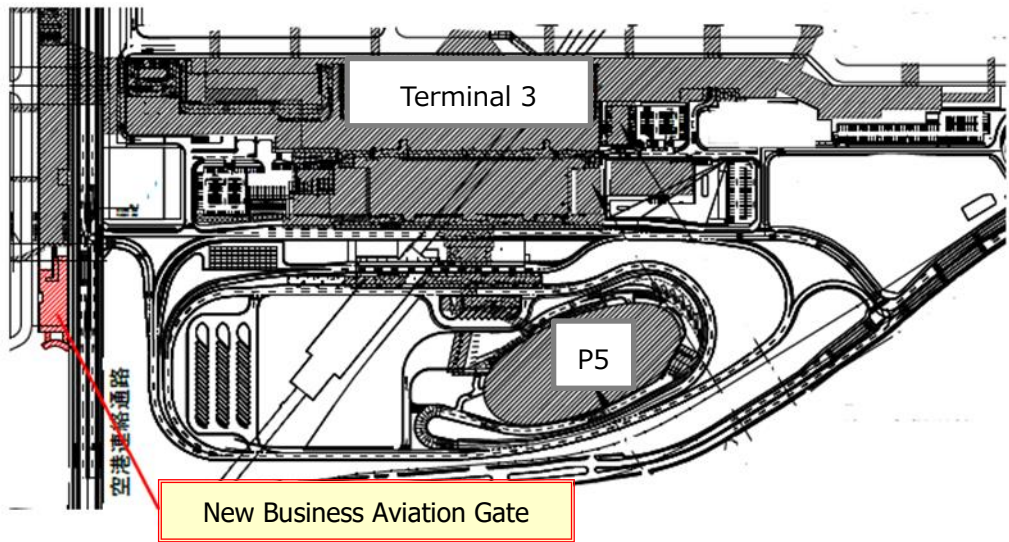

1. Name of facility: Tokyo International Airport Business Aviation Gate
2. Location: West side of North Satellite, Terminal 3, Tokyo International Airport (see attachment)
