Japan Airport Terminal Co., Ltd. and Tokyo International Air Terminal Corporation (referred to collectively below as "the Corporate Group") are to reopen Terminal 2 (international common use area) on 19 July 2023 after it was closed due to the COVID pandemic.

Terminal 2, which was previously used only for domestic flights, has new arrival and departure floors and duty-free shops, etc., and began operating on 29 March 2020 to work alongside the extensions in Terminal 3 to accommodate the increasing number of international services, and to consolidate the connections with flights on Haneda's extensive domestic network, which are the airport's strength.

However, the facility had to close on 11 April 2020 due to the impact of the COVID pandemic, but with the change in COVID to a Category 5 infectious disease, the decision was taken to reopen the facilities to accommodate a surge in the recovery of passenger traffic.

Opening Date and Time and Hours of Operation

Start up: The facility will commence operating at 5:00 AM on Wednesday, 19 July

Hours : 5:00 AM to 1:30 PM (JST) * Operating hours may vary.
